**Drop Permit to connect your home or business to LISCO's optical fiber network
(must be signed by landowner or agent - Only one form necessary per building)**

Print Name:

Service Address:

Telephone:

Mailing Address (if different from above):

The Undersigned grants LISCO permission to construct, operate and maintain a communications line or system on, over, or under the above premises. Undersigned further agrees that in the event that said undersigned is not the owner of all private land or lands necessary to be crossed, as stated above, he or she or they shall obtain all necessary permission from the owner or owners of said land or lands, and shall submit same to said Company prior to installation of service. Landowner or agent hereby grants to the Company access to the premises and the right to connect to the structure of Undersigned at all reasonable times for its purpose of installing, repairing, maintaining, or removing said service to the premises. All Equipment, including the fiber, remains the property of LISCO.

LISCO will follow procedures set forth by Iowa One-Call to help locate existing utility lines when installing a connection to its network. However, private lines or systems such as sprinkler systems, buried lines to out buildings, septic systems, drain fields, etc. are not a part of the One-Call system. In an effort to prevent disturbing private lines, please let us know of any private lines you are aware of and provide us a telephone number at which we can reach you to discuss their location. You will be responsible for repairing any damages incurred if LISCO should hit a buried service that was not properly marked.

Private lines, pipes, cables, etc. possibly not known to One-Call
